

# Defend the free and open Internet!

**We are here to tell our lawmakers to reject the FCC's plan to kill net neutrality.**

1. **The first deadline for public comments on FCC Chairman Ajit Pai's plan to kill net neutrality rules is in just a few days (July 17th).** These rules protect us from internet service providers like Comcast and Verizon from throttling, censoring, blocking, and charging extra fees online.
2. **Net neutrality is the First Amendment of the internet. It protects our free speech in the digital age.** Members of Congress must reject Chairman Pai's plan to kill net neutrality because it will allow ISPs like Comcast and Verizon to control what we see and do online.
3. **Title II is the legal foundation for net neutrality protections.** It prevents companies like Comcast, Verizon, and AT&T from forcing sites to pay special fees for access to a "fast" lane, while slowing down everyone who can't or won't pay.
4. **Cable Companies are pouring money into misleading lobbying efforts to convince the public that net neutrality is some kind of "government takeover of the Internet."** That's an outright lie. Net neutrality protects our Internet freedom from corporations AND governments. No one wants politicians— or corporate monopolies— deciding what they can see and do on the internet.
5. **Net neutrality gives more people a voice than ever before.** It's what has made the Internet such a powerful platform for anyone who wasn't given a voice or fair treatment by mainstream media.

Visit [battleforthenet.com](http://battleforthenet.com) to submit a comment to the FCC and your member of Congress in defense of net neutrality!
